

Backup System

Protect your documents, emails, and more

doble **IT**
computing made easy

0411 831 492 www.dobleit.com.au

- ✓ Go 'back in time' to recover previous versions of documents, or lost emails
- ✓ Fully automated, backs up daily, can store up to 6 months of past backups
- ✓ Protect your business against disasters like fire or flood with offsite backups
- ✓ Backups are secured with password protection to safeguard your data
- ✓ Back up multiple computers and servers with ease

How much is your business data really worth?

Customer databases, emails and contacts, company documents, payroll?
How long would it take you to recover if you were to lose it all?
How much staff time is wasted re-writing lost or overwritten documents?
Are you still relying on CDs or emailing important documents home?
Call us now for a free consultation to see how Doble IT can help your business.

What's included?

- Backup system
- Two off-site backup drives
- Set up and configuration of the system
- Set up of one computer or server for backups
- Training on how to use the system
